

A1. Nudge:

SL: You don't want to sleep on this

PV: N/A

Hey {first_name},

Thanks for showing up to the free live masterclass earlier.

If you've already submitted your application form, then feel free to ignore this.

If you haven't yet, then this is your nudge to do it.

The excitement will be gone by the weekend, because the value that you've just received has a shelf life to it.

You can get started with that right here: [LINK]

My team can't wait to check it out.

- Dane

A2. Case Study:

SL: Zero to hero

PV: N/A

Hey {first_name},

Let me tell you about one of my students named Bo.

He was working a dead-end job and grinding away at TikTok Shop.

We got his approach dialed in to give him the most bang for his buck.

He ended up taking home roughly thirty thousand dollars of commissions in a single month.

The only thing standing between him and yourself is making a change.

You can submit your [application form](#) right here: [LINK]

My team can't wait to check it out.

A3. Recap:

SL: Scalex AI in a nutshell

PV: N/A

Hey {first_name},

You showed up to the free live masterclass.

This means that you got access to an offer that I'm not making in the same way anywhere else.

I'm talking about *Scalex AI* of course:

- One-on-one coaching calls for weekly sessions between us.
- One-on-one access for a direct line of communication to me.
- Group coaching calls for multiple events per week with myself and coaches.
- Course content in the form of recorded lessons for everything.
- A community that's a network of others printing together.

There's a ton of bonuses that I'm not mentioning right now like *The Selection Suite*.

The only setback will be remaining stuck where you are forever.

You can submit your application form right here: [LINK]

My team can't wait to check it out.

N1. Nudge:

SL: Here's the replay

PV: N/A

Hey {first_name},

It looks like you couldn't make it to the [free live masterclass](#).

I'll get you right with the replay though: [LINK]

This won't be up forever, so give it a watch while you still can.

Let us know what you think.

- Dane

N2. Recap:

SL: I'm giving you one last chance

PV: N/A

Hey {first_name},

Let me summarize the free live masterclass real quick...

Copying and pasting my \$1,000,000+ GMV artificial intelligence strategy for TikTok Shop can be boiled down to two things.

This is without risk upfront, effort and sacrifice, or earning caps.

Manual labour is a sign that you're prioritizing workload over performance.

It requires making decisions based on gut feeling, enduring friction throughout the entire process, and running everything by yourself.

This means that you're taking a gamble, you become your own bottleneck, and you're bound to hit a ceiling.

Artificial intelligence lets you pair the strongest tool of the century with the greatest opportunity of the decade.

It comes down to letting the data do its thing, leveraging the available technology, and working on the business not inside of the business.

The result is that you're setting yourself up for success, you can multiply quantity and quality, and you're taking a step back from the day-to-day.

I'll only be keeping the replay up for a little longer.

N3. Pressure:

SL: It's your move next

PV: N/A

Hey {first_name},

Let me remind you why you registered for the free live masterclass in the first place.

You wanted to copy and paste my \$1,000,000+ GMV artificial intelligence strategy for TikTok Shop.

This is without risk upfront, effort and sacrifice, or earning caps.

The replay isn't going to watch itself.

I'm about to take it down: [LINK]

Let us know what you think.
